

Jackson County Data Share Agreement

Jackson County reserves the right to grant the use of data for specific projects to qualified organizations for research and special projects that benefit the citizens of Jackson County. Any qualified organization requesting digital data will be charged only fees to cover the cost of materials, shipping, and minimum labor necessary to distribute the data. In return, the user must issue a digital or hard copy of the final project or research to Jackson County.

Use of GIS or digital data is granted for the life of the project through the "Jackson County Digital Data Agreement". Requests for the granted use of GIS information will be considered on an individual basis. Grantees engaged in research or special projects could include, but are not limited to, service contractors and consultants working for government agencies, neighborhood associations, churches, hospitals, non-profit agencies, high school or college students, and civic groups.
